T2

DIABLOSPORT

Trinity EX

PROGRAMMER/IN-CAB DISPLAY

T2

PERFORMANCE TUNING/IN-CABIN DISPLAY

The all-new Trinity (T2) EX is the most advanced performance programmer of its kind. Featuring full re-flash/reprogram capability, advanced data acquisition, and customizable gauges, the T2 allows users to tune their car or truck to add additional horsepower, torque, improve throttle response and overall drivability.

FEATURES*

- Full-color, high-definition 5" touch screen
- Performance tuning for mileage, towing, daily driving, and performance
- Up to an additional 100HP & 250 ft lb TQ* on Diesel applications, 86HP & 63 ft lb TQ* on Gas applications
- Customizable gauge screen "Layouts" where users can create and customize numerous Layouts containing up to 5 different gauge screens per Layout
- Swipe the screen left or right to toggle between user-selected gauge screens within a Layout
- Custom color mixer and customizable gauge themes
- One-touch, easy menu navigation
- Read and clear diagnostic trouble codes
- Comprehensive data logging, and performance tests
- Correct speedometer and adjust speed and rev limiters*
- Light sensitivity meter to activate user-adjusted day/night modes
- Internet updateable

* Results and feature set may vary based on vehicle make, model and aftermarket upgrades on the vehicle.
